Survey of the Health of Wisconsin (SHOW)

Research Study Seeks Input from Greenfield Residents

GREENFIELD, WI – The Survey of the Health of Wisconsin (SHOW) will be working in Greenfield beginning in August 2015 and continuing into early fall. The SHOW, started in 2008, is an on-going research study conducted by the University of Wisconsin School of Medicine and Public Health that is designed to measure the health of Wisconsin residents. The information collected from SHOW can help to guide plans for improving health in our communities.

Approximately 550 randomly selected households from Milwaukee County will be invited to participate in 2015. The selection of households will include City of Greenfield residents. SHOW is endorsed by the Greenfield Health Department.

Additional information related to the SHOW can be found at www.show.wisc.edu or via the SHOW Facebook page.
